

15th European Vacuum Conference (EVC-15)

Monday 18 June 2018

Plenary session: Tomorrow's optical coatings: From passive interference filters and multifunctional systems towards smart meta-structures - Change of paradigm? - Room 2 (09:00 - 09:45)

-Conveners: Martin Wüest

time	[id] title	presenter
09:00	[380] Optical coatings of tomorrow: From passive interference filters and multifunctional systems towards smart meta-structures - Change of paradigm?	Prof. MARTINU, Ludvik

Tuesday 19 June 2018

Plenary session: The fascinating world of organic nanocrystals on 2D materials - Room 2 (08:30 - 09:20)

-Conveners: Mauro Taborelli

time [id] title

presenter

08:30	[343] The fascinating world of organic nanocrystals on 2D materials	Prof. TEICHERT, Christian
-------	---	---------------------------

Wednesday 20 June 2018

Plenary session - Room 2 (08:30 - 09:15)

-Conveners: Pierre Strubin

time	[id] title	presenter
08:30	[379] Chemical and electronic imaging of energy and electronics materials important for basic science and industrial applications	Prof. ASENSIO, Maria C.

Thursday 21 June 2018

Plenary session - Room 2 (08:30 - 09:15)

-Conveners: Paolo Chiggiato

time	[id] title	presenter
08:30	[373] Fundamental mechanisms of accelerated and plasma ion interactions with materials: insights from atomistic simulations	NORDLUND, Kai

Friday 22 June 2018

Plenary session - Room 2 (08:30 - 09:15)

-Conveners: Jörg Patscheider

time	[id] title	presenter
08:30	[370] Nanostructures and layer stacking in artistic materials: the origin of colors in paintings	WALTER, Philippe
