7. Please give the full names of the members of the technical team working on this project. *

Please give first and last names of each person, separated by commas.

8. Please give the full names of all of the collaborator liaisons. *

People at both the external companies and research institutes should be listed here.

9. Please briefly explain the overall goal(s) of the project. *

This should be 50 words ($\pm 20\%$).

10. Please provide a short overview of the project background *

(i.e. it's potential impact for CERN/wider science and why it's important we do this work).

This should be 80 words ($\pm 15\%$).

11. Please describe the progress made on the project in 2017. *

This should be 150 words ($\pm 10\%$).

12. Please describe the next steps for this work. *

(n.b. If the project has come to a close during 2017, please state this, but please also provide a description of any further investigations related to the project's, how the project's work might be continued or adapted into production processes either at CERN or elsewhere, etc.)

This should be 50 words ($\pm 20\%$).

13. Please list alphabetically all publications related to this project from 2017. *

(please include all presentations, posters, reports, etc.)

Taking a separate line for each item, please list all 2017 publications using the official CERN style for 'yellow reports' and proceedings. Full details: <http://publishing.web.cern.ch/files/Userguide/References.pdf>

Presentations should be given in the following format: M. Curley, Harnessing digital disruption: "Open Innovation 2.0" - the new mode of digital innovation (21 September). Presented at CERN openlab Open Day, Geneva, 2017.

14. Do you have an image we can use on the project page in the annual report?

This can be a photograph, diagram, graph, etc.

Please paste a link to a hi-res version in CERNbox above, or simply attach the hi-res version to the email you send with this completed form.

15. Proposed caption for image (if you have provided one).

16. We would also like to take a photo of you and your team for use in the annual report. Please select a time slot using this Doodle <https://doodle.com/poll/2wi9e6m7vs85226u> and provide suggestions for where you would like to be photographed below. *

As with the last two annual reports, we will use reportage style photos. As such, we would like to have photos in offices, corridors, meeting rooms, the data centre, control rooms, and other open spaces (including outside).

17. Please add any additional comments here.

18. Finally, if you have any comments on this new method of collecting input for the annual report, please share them below.

Thank you very much for submitting your input for the 2017 CERN openlab annual report. The edited version of the text will be shared with you prior to publication
