===

No new issues in the US cloud were reported by ADCoS shifters this week.

Follow-ups from earlier reports:

(i) 7/24: SWT2_CPB - source/destination file transfer and deletion errors ("Communication error on send...Error reading token data header: Connection closed"). Same issue as was reported in ggus 129473 (i.e., one storage server is getting overloaded and this in turn backs up the SRM service). https://ggus.eu/?mode=ticket_info&ticket_id=129725 in progress, eLog 62088.

(ii) 8/27: NET2 - most / all transfers from the site to DE/UNI-FREIBURG & RU/JINR-LCG2 fail with a "Unable to connect to (machine IP address) - 500-globus_xio: System error in connect: Connection timed out." https://ggus.eu/?mode=ticket_info&ticket_id=130245, eLog 62491.
9/30: https://ggus.eu/?mode=ticket_info&ticket_id=130850 was opened - same issue as in ggus 130245? eLog 62822.
Update 10/10: Closed ggus 130850 since it duplicates the issue reported in ggus 130245. eLog 62892.
