

15th Varenna Conference on Nuclear Reaction Mechanisms

Monday, June 11, 2018

Nuclear structure/reactions (11:30 AM - 12:30 PM)

-Conveners: Jose Manuel Quesada Molina

time	[id] title	presenter
11:30	A11 Geometric shapes describing nuclear reaction mechanisms such as fusion, alpha emission and capture, binary and ternary fission, planar fragmentation and n-alpha nuclei	ROYER, Guy
11:50	A11 Oscillation symmetry applied to: 1) hadronic and nuclei masses and widths, and used to suggest unknown spins, 2) astrophysic	TATISCHEFF, Boris
12:10	P10 Symmetry energy in the liquid-gas mixture	Prof. LOPEZ, Jorge
