

# 15th Varenna Conference on Nuclear Reaction Mechanisms

## Thursday, June 14, 2018

### Potential, strangeness, pion (5:15 PM - 6:45 PM)

-Conveners: Jutta Escher

time	[id]	title	presenter
5:15 P	[M5]	Microscopic Optical Potential Derived from $\pi$ Chiral Potentials.	Prof. GIUSTI, Carlotta
5:45 P	[M8]	Production of strange particles and hypernuclei in spallation reactions from the coupling of intranuclear cascade and de-excitation models.	HIRTZ, Jason
6:15 P	[M9]	Isospin of pions - what do they tell us about the neutron skin of nuclei?	HARTNACK, Christoph
