What's new in HTCondor? What is upcoming?

Wednesday 16 May 2018 15:20 (20 minutes)

he goal of the HTCondor team is to to develop, implement, deploy, and evaluate mechanisms and policies that support High Throughput Computing (HTC) on large collections of distributively owned computing resources. Increasingly, the work performed by the HTCondor developers is being driven by its partnership with the High Energy Physics (HEP) community.

This talk will present recent changes and enhancements to HTCondor, including details on some of the enhancements created for the forthcoming HTCondor v8.8.0 release, as well as changes created on behalf of the HEP community. It will also discuss the upcoming HTCondor development roadmap, and seek to solicit feedback on the roadmap from HEPiX attendees.

Desired length

15 min, but I am flexible shorter or longer

Primary author: TANNENBAUM, Todd (University of Wisconsin Madison (US))

Presenter: TANNENBAUM, Todd (University of Wisconsin Madison (US))

Session Classification: Computing and batch systems

Track Classification: Computing & Batch Services
