

Data analysis as a service

Friday, May 18, 2018 10:50 AM (20 minutes)

We are seeing an increasingly wide variety of uses being made of Hybrid Cloud (and Grid!) computing technologies at STFC, this talk will focus on the services being delivered to end users and novel integrations with existing local compute and data infrastructure.

Desired length

20

Primary author: Mr ADAMS, James (STFC RAL)

Presenter: Mr ADAMS, James (STFC RAL)

Session Classification: Clouds, virtualisation, grids

Track Classification: Grid, Cloud & Virtualisation
