

# Beyond Standard Model: Where do we go from here? -- Johns Hopkins Workshop Series

## Friday, 5 October 2018

### **BSM model building: on EWSB (10:00 - 13:00)**

time	[id] title	presenter
10:00	[22] Conformal to non-conformal transitions, supercooling and axions	POMAROL, Alex
10:30	[23] Weird Effective Theories	RATTAZZI, Riccardo
11:00	Coffee	
11:30	[43] weak gravity conjecture	REECE, Matthew
12:00	[27] New Directions In Axions	AGRAWAL, Prateek
12:30	[42] Self-organizing Higgs	HUBISZ, Jay

### **BSM model building: unification of the TeV scale and cosmology (14:00 - 15:30)**

time	[id] title	presenter
14:00	[53] New Physics from 21 cm	RUDERMAN, Joshua Thomas
14:30	[25] Before and after the first second	D'ERAMO, Francesco
15:00	Coffee	

### **BSM model building: beyond the beyond (15:30 - 16:30)**

time	[id] title	presenter
15:30	[28] New approaches to the Hierarchy problem	HOOK, Anson
16:00	[54] Gambling Beyond the Standard Model	SUNDRUM, Raman
