

2018 IEEE International Power Modulator and High Voltage Conference

Monday, 4 June 2018

Oral 1 - Dielectrics - Explorers Room (10:00 - 12:00)

time	[id] title	presenter
10:00	[187] Experimental and Theoretical Characterization of Functionalized Barium Titanate Nanoparticles	Dr MONSON, Todd
10:45	[31] Compact Very High Voltage Capacitor Development Based on Advanced Machinable, NanoDielectric Materials	DICKERSON, Sam
11:00	[50] Trap distribution of aging polymeric materials and its effect on surface flashover in vacuum	REN, Chengyan
