

Session Program

23-24 Apr 2018

AIDA-2020 - Academia meets Industry - Non Destructive Testing

Technologies from Academia

Centro San Domenico
Centro San Domenico Piazza S. Domenico, 13, 40124 Bologna BO, Italy

Monday 23 April

14:30

Technologies from Academia

Session | **Location:** Centro San Domenico , Centro San Domenico Piazza S. Domenico, 13, 40124 Bologna BO, Italy

14:30-15:00 **Applus+RTD**

Speaker

Philip Van Meer

15:00-15:20

ISQ - Wind turbine tower welding automatic inspection during manufacturing, using artificial vision for superficial inspection and Ultrasonic for volumetric inspection

Speaker

José Pedro Sousa

15:20-15:40 **Teledyne ICM - CMOS Imaging Technology for NDT Applications**

Speaker

Thorsten Achterkirchen

15:40-16:00 **Nikon Metrology- High energy Micro CT applications**

Speaker

Carsten Rudolf

16:00-16:20 **Coffee Break**

16:20-16:40 **Leonardo - Aircraft and helicopters- NDT's in Leonardo Company**

Speakers

Antonio Ciliberto, Fabrizio Montagnoli

16:40-17:00

Maser Engineering - 2D and 3D Non Destructive Analysis for electronic components and modules

Speaker

Kees Revenberg

17:00
