

The Sixth Annual Large Hadron Collider Physics Conference (LHCP2018)

Benvenuto

Daily News Thursday 7th June

Programme

Padre Daniele took a moment to wish all the LHCP2018 participants a wonderful week with interesting talks.

Bologna:

Bologna was founded by the Etruscans and has thrived as a popular trade and learning centre. It has a population of nearly 500,000 and is home to the oldest university in the world, University of Bologna, founded in 1088.

On the top of nearby hills (the "colli") is placed San Luca Cathedral, a big abbey from which you can admire a breath taking view of Bologna landscape.

The church is placed above 666 steps, as a Christian metaphor of the faith defeating the devil.

Morning
