We had a fantastic week with the LHCP2018 Conference thanks to the impressive quality of the talks given, of the posters presented, to the rich discussions we had, to the large attendance, and also to the excellent organization from the hosting community.
First of all, many thanks to all speakers and poster presenters for the work done preparing and reporting the talks at this Conference! This stimulated quite some discussions during this week, exactly in the spirit of LHCP conferences!
Many thanks to the *Programme Committee* for the high-level of the Parallel and Plenary Sessions, chaired by *Gunther Dissertori* and *Dan Tovey* and to all Parallel Session conveners.
