Physics driven Hackatons

Tuesday 5 June 2018 14:47 (17 minutes)

Problem solving workshop hackathons are becoming more and more common in the world of academia. CERN and the LHC experiments have been involved in these type of projects for many years, bringing together data scientists, coders and innovators, from extremely diverse backgrounds. This talk offers a review of the most recent hackathon project and their impact on the world of high energy physics.

[NB: 15 minutes talk plus 2 minutes of questions]

Presenter: DZIURDA, Agnieszka (CERN)

Session Classification: Parallel Outreach
