

Session Program

12-14 Mar 2018

PULse POWer for Kicker Systems (PULPOKS) workshop 2018

Session 4 : Pulsed measurements and online monitoring and analysis

CERN, 6/2-004

Monday 12 March

15:30

Session 4 : Pulsed measurements and online monitoring and analysis

Session | Location: CERN, 6/2-004 | Convener: Etienne Carlier

15:30-16:00

Internal Post-Operation Check (IPOC) System for Kicker Magnet Current Waveform Surveillance

Speaker

Nicolas Magnin

16:00-16:30

Pulsed measurements and online monitoring and analysis

Speaker

Nuria Ayala

16:30-17:00

Pulse Current Monitoring for Fast Pulsed Magnets at BESSY II and MLS Light Sources

Speaker

Olaf Dressler

17:00-17:30

High stability resonant kicker system for Swiss Free Electron Laser (SwissFEL) at Paul Scherrer Institute

Speaker

Dr Martin Paraliiev

17:30
