

# LHC Seminar

SPEAKER: Kathrin Becker  
TITLE: **Recent ATLAS Higgs measurements using di-boson decays**  
DATE: 20 Mar 2018, 11:00  
PLACE: 500-1-001 - Main Auditorium

## ABSTRACT

The seminar presents recent measurements of Higgs boson production properties using decays to pairs of W bosons, Z bosons or photons. The results are based on 36 fb<sup>-1</sup> of pp collision data taken in 2015 and 2016 at 13 TeV by the ATLAS experiment.
