

Patatrack Hackathon Day 3 - Riemann Fit - MR, W

- This Morning:
 - Started diving into the math of the Line Fit to figure out anomalies of pulls
 - Integration in FCCSW
 - Started with the basic infrastructure (that was missing wrt. CMSSW)
 - Translating hits
 - Unit-tests for a start
 - <https://github.com/HEP-SF/TrickTrack/pull/2>
 - <https://github.com/HEP-FCC/FCCSW/pull/242>

Next up:

- Re-run track tests with Geantinos, Muons, min-bias in FCCSW
- Need to port some plotting scripts from CMSSW
- More debugging ...
