CBPF Python Summer Camp

The Python Summer Camp is planned as an informal get-together of researchers from different areas, who are motivated to improve their (basic) Python skills while working on small projects related to current research activities from different fields.

19/2/2018-28/2/2018
CBPF, Urca, RJ

Topics

Ising Model
Quantum Walks
Neural Networks
Baysian Statistics
Data Mining
Parameter Estimation
Hypothesis Testing
Topological Insulators

Registration (open until 21/1/2018): https://goo.gl/A5JvuF
Local Organizers: Carsten Hensel, Linneu Holanda, Tobias Micklitz
Contact: python.camp.cbpf@gmail.com
