

Searches for dark matter with CMS

Thursday, July 5, 2018 11:00 AM (15 minutes)

Searches in CMS for dark matter in final states with invisible particles recoiling against visible states are presented. Various topologies and kinematic variables are explored, including jet substructure as a means of tagging heavy bosons. The focus of the talk is the recent results obtained using data collected at Run-II of the LHC.

Primary authors: MEYER, Arnd (Rheinisch Westfaelische Tech. Hoch. (DE)); ALBERT, Andreas (Rheinisch Westfaelische Tech. Hoch. (DE))

Presenter: ALBERT, Andreas (Rheinisch Westfaelische Tech. Hoch. (DE))

Session Classification: Dark Matter Detection

Track Classification: Beyond the Standard Model
