

# The latest results of the measurement of the Higgs boson decaying into two photons at CMS

*Friday 6 July 2018 09:00 (15 minutes)*

The latest results of the measurement of the Higgs boson decaying into two photons will be presented. The analysis is performed using data collected with the CMS experiment in 2016 and 2017 at the LHC from pp collisions at centre-of-mass energies of 13 TeV.
