

Regional, Age and Gender Demographics in the ATLAS Collaboration

Saturday, 7 July 2018 11:00 (20 minutes)

The ATLAS Collaboration consists of more than 5000 members, with nearly 100 different nationalities. This study presents updated data showing aspects of the regional, age and gender demographics of the collaboration. In particular the relative fraction of women is discussed, including their share of contributions, recognition and positions of responsibility, and showing how this depends on other demographic measures.
