

# ATLAS measurements of CP Violation and Rare decays in Beauty mesons

*Thursday, 5 July 2018 11:00 (20 minutes)*

The ATLAS experiment has performed accurate measurements of mixing and CP violation in the neutral B mesons, and also of rare processes happening in electroweak FCNC-suppressed neutral B-mesons decays. This talk will focus on the latest results from ATLAS, such as rare processes:  $B^0_s \rightarrow \mu\mu$  and  $B^0 \rightarrow \mu\mu$ ; and CPV in  $B_s$  to  $J/\psi\Phi$
