

Search for Z and Higgs boson decaying into J/psi + photon in pp collisions at 13 TeV with CMS

Friday 6 July 2018 20:15 (15 minutes)

Search for the Standard Model Z and Higgs boson decaying into a J/psi and a photon, with subsequent decay of the J/psi into dimuon pair will be presented. The analysis is performed using data recorded by CMS detector from proton-proton collisions at 13 TeV in 2016. The latest results of the limits on the Z/Higgs \rightarrow J/psi+photon decay branching fraction will be shown in this poster.
