

# XXIV International Baldin Seminar: *Relativistic Nuclear Physics* *& Quantum Chromodynamics*

(series of biennial International Seminars)

September 17-22, 2018, JINR, Dubna, Russia

<http://relnp.jinr.ru/ishepp/>

## Seminar Topics

- *QCD at large distances*
- *Relativistic heavy ion collisions*
- *Hadron spectroscopy, multiquarks*
- *Structure functions of hadrons and nuclei*
- *Multiparticle dynamics*
- *Polarization phenomena, spin physics*
- *Studies of exotic nuclei in relativistic beams*
- *Applied use of relativistic beams*
- *Accelerator facilities: status and perspectives*
- *Project Nucl&MPD (Nucleon-based Ion Collider facility/MultiPurposed Detector) at JINR*
- *Progress in experimental studies in high energy centers — JINR, CERN, BNL, JLAB, GSI, etc.*

V. Kekelidze, C11, ICHEP-2018, Seoul
