# New common

# SBN online meetings

# Scope of the common online meetings

- Discussion of all components of online data processing:

  ✓ timing and beam signal distribution (White Rabbit);

  ✓ event building;

  ✓ online monitoring;

  ✓ slow control (summary status report only: dedicated meetings every 3 weeks);

  ✓ data quality monitor;

  ✓ data management…

- Focus on commonalities between SBND and ICARUS.

- Every 2 weeks.

  Not all the meetings will be technical on DAQ only: one every 2-3 will be dedicated to discuss strategies and general aspects.

- Please fill out the Doodle poll by next Tuesday (consider time-slots, not specific dates):

  https://doodle.com/poll/biew5agvwyxsapmf.

  N.B.: if Wednesday, it will never overlap with WA104 meeting.
