

7th Edition of the Large Hadron Collider Physics Conference

Wednesday, 22 May 2019

Parallel Top: Top pair production cross section and top quark properties - Sala Multimedia (11:30 - 13:00)

time	[id] title	presenter
11:30	[253] State-of-the-art precision calculations for top quark production and decay	PONCELET, Rene
12:00	[254] Latest ATLAS measurements of inclusive and differential top quark pair production	MIJOVIC, Liza
12:15	[255] Latest CMS measurements of inclusive and differential top quark pair production	MIKUNI, Vinicius Massami
12:30	[256] Latest results on top quark properties, inc. mass and spin correlation @ ATLAS	CRISTINZIANI, Markus
12:45	[257] Latest results on top quark properties, inc. mass and spin correlation @ CMS	NEGRO, Giulia

Thursday, 23 May 2019

Parallel Top: Top pair production in association with additional bosons or quarks - Cine 1 (11:30 - 13:00)

time	[id] title	presenter
11:30	[271] Precise modeling of $t\bar{t}$ +jets/ $b\bar{b}$ / $t\bar{t}\bar{b}$ final states	JEZO, Tomas
12:00	[272] Measurement of $t\bar{t}$ +X including 4tops with ATLAS	NELLIST, Clara
12:20	[273] Measurement of $t\bar{t}$ +X including 4tops with CMS	KIM, Tae Jeong
12:40	[274] Latest LHC searches for new interactions with top quarks	FAROOQUE, Trisha

Friday, 24 May 2019

Parallel Top: Single top quark and new physics - Sala Virtual (11:30 - 13:00)

time	[id] title	presenter
11:30	[275] Latest measurements in single top quark with the ATLAS experiment	HIRSCHBUEHL, Dominic
11:50	[276] Latest measurements in single top quark with the CMS experiment	IEMMI, Fabio
12:10	[277] Towards global fits in EFT's and New Physics implications	SLADE, Emma
12:40	[278] EFT interpretations of top quark measurements at the LHC	MAL, Prolay
