

Session Program

20-25 May 2019

7th Edition of the Large Hadron Collider Physics Conference

Plenary VII

Other Institutes

CCU BUAP, Via Atlixcayotl 2299, Angelópolis, Corredor Comercial Desarrollo Atlixcayotl, 72810 Puebla, Mexico

Thursday 23 May

09:00

Plenary VII: Rare top, EW processes and indirect sensitivity

Session | **Location:** CCU, Teatro | **Conveners:** Markus Cristinziani, Tulika Bose

09:00–09:20 **Global fits of the SM parameters**

Speaker

Jens Erler

09:23–09:43
Studies of rare top processes: tZ , $t\gamma$, 4-top, FCNC, anomalous couplings

Speaker

Maria Moreno Llacer

09:46–10:06
Studies of rare EW processes at the LHC Diboson and Triboson production (including prospects)

Speaker

Philip Chang

10:09–10:29
Precise predictions for rare processes involving Top-Quarks and their phenomenological implications.

Speaker

Davide Pagani

10:36
