CP violation and mixing in beauty with LHCb

Thursday, 8 August 2019 11:15 (12 minutes)

Summary

Recent results on time-dependent and time-integrated measurements of CP violation and of meson mixing in the beauty sector are presented, along with prospects for future sensitivities.

Primary authors: LHCb COLLABORATION; SANTAMARINA RIOS, Cibran (Universidade de Santiago de Compostela (ES))

Presenter: SANTAMARINA RIOS, Cibran (Universidade de Santiago de Compostela (ES))

Session Classification: Flavour Physics (Parallel)

Track Classification: Quark/Lepton Flavour Physics
