Charm Mixing and CPV at LHCb

Tuesday 24 July 2018 18:00 (20 minutes)

LHCb has collected the world's largest sample of charmed hadrons. This sample is used to measure $D^0 - \bar{D}^0$ mixing and to search for direct and indirect CP violation. New measurements from several decay modes are presented.

Parallel Session

BSM aspects of Flavour and Neutrino Physics

Authors: MUELLER, Katharina (Universitaet Zuerich (CH)); ALEXANDER, Michael Thomas (University of Glasgow (GB))

Presenter: ALEXANDER, Michael Thomas (University of Glasgow (GB))
