ESR representative to SB

- Perhaps more practical to have one representative for full period? (this solution was taken for the SB chair, Julien Mekki)
- One annual meeting, plus emails for approval (member with right to vote, i.e. beneficiaries) and information (representatives)
- Next (3rd) SB meeting will take place in Saint Etienne on 12.09.2018

Supervisory board (SB)

The SB is chaired by an annually elected representative (partner or beneficiary) and co-chaired by the EU representative. It further includes a designated university advisor, one representative from each of the beneficiaries and partners, the designated equal opportunity officer as well as one annually elected ESR representative. The SB will have a kick off meeting at the start of the network activity, with a follow up meeting after 6 months, and annual meetings thereafter. The SB is responsible for: (i): approving and overseeing implementation of the training program for scientific, technical and complementary skills, and co-ordination of the network-wide training activities; (ii): monitoring and evaluating overall progress of the research training program, as well as ensuring best training practice with the partners, and in particular with the industrial members; (iii): acting as internal audit body for the Executive Committee in this way independently approving all budget, structural and network strategy.
