

CernVM, Systems and Services

Team meeting

17 January 2018

News / Reminders

- *Standard* Summer Students call is open
 - Deadline: 11 February
 - Openlab SS usually one more week
- MERIT process to be completed by 6 March
 - Interview + form fill-up
 - Concerns GG, PML, JB, IG
- CernVM Users Workshop in two weeks
- Plan of Work presentations start next week
 - Ours is after the workshop, likely on 5 February 2018
 - EP-SFT retreat not scheduled yet (postponed?)

Other items

Build nodes

- Mac nodes are now managed by Radu
 - Transition done before Christmas

The proposed changes in the service tasks have been accepted

- Still miss a second (or first?) name for Coverity

CHEP 2018 abstract wrap-up

- Bulding, testing and distributing common software for the LHC experiments
 - PML et al.
- Towards a responsive CernVM-FS architecture
 - RP et al.
- Serverless publishing in CernVM-FS
 - JB et al.

Towards a plan of work for 2018

- We had very comprehensive status and medium evolution talks end of November / beginning of December
 - SPI, Genser, CernVM
- That is the base for our PoW presentation which I am putting together
 - Target is to have a first discussion next Wednesday
 - I will circulated at least one day in advance
- For CernVM, input from the workshop will be integrated as it comes
- If times allows we may have a discussion on the final version on Friday 2nd, morning
