

Session Program

14-18 May 2018

Scattering from the lattice: applications to phenomenology and beyond

Zohreh Davoudi - Topics in Lattice QCD for Nuclear Physics

Hamilton Mathematics Institute, TCD, Synge Lecture Theatre
Hamilton Building, Trinity College Dublin, The University of Dublin, College Green, Dublin 2, Ireland

Thursday 17 May

09:30

10:40

14:30

15:45

Zohreh Davoudi - Topics in Lattice QCD for Nuclear Physics: Lecture 1

Session |

Location: Hamilton Mathematics Institute, TCD, Synge Lecture Theatre, Hamilton Building, Trinity College Dublin, The University of Dublin, College Green, Dublin 2, Ireland

Zohreh Davoudi - Topics in Lattice QCD for Nuclear Physics: Lecture 2

Session |

Location: Hamilton Mathematics Institute, TCD, Synge Lecture Theatre, Hamilton Building, Trinity College Dublin, The University of Dublin, College Green, Dublin 2, Ireland

Friday 18 May

09:30

10:40

Zohreh Davoudi - Topics in Lattice QCD for Nuclear Physics: Lecture 3

Session |

Location: Hamilton Mathematics Institute, TCD, Synge Lecture Theatre, Hamilton Building, Trinity College Dublin, The University of Dublin, College Green, Dublin 2, Ireland
