

From Higgs to Dark Matter, Geilo 2012, Dr Holms Hotel

Sunday, 16 December 2012 - Wednesday, 19 December 2012

Geilo, Dr Holms Hotel, Norway.

Scientific Programme

The scientific programme starts on Monday 17th of December and ends on Wednesday the 19th of December. The travel days are 16th and 19th of December. The program is composed of overview presentations and contributed talks of some of the most actual topics in particle- and astroparticle physics, with an emphasis on consequences of the Higgs discovery on Dark Matter Searches. There will be also a special outreach session on educational data sharing with the public, in astroparticle and particle physics. The registration/abstract submission deadline is 2nd of December.

Preliminary version of material to be approved
