High Energy Physics - Room X (11:00 - 12:30)

time	[id] title	presenter
11:00	[19] LHCb operations: organizations, procedures, tools and critical services.	Dr SANTINELLI, roberto
11:20	[165] Distributed Computing and Data Analysis in the CMS Experiment: the Spanish and Portuguese case	Dr FLIX MOLINA, Jose
11:40	[32] The Grid as an Extended Application Service Provider in an Synchrotron Radiation Facility	KOUROUSIAS, George PRICA, Milan PUGLIESE, Roberto
12:00	[4] ATLAS Distributed Computing in Spain and Portugal: from data challenges to real data	Dr ESPINAL, Xavier

High Energy Physics - Room X (14:00 - 15:30)

time	[id] title	presenter
14:00	[8] Response of the ATLAS Spanish Tier2 for the collisions collected in the first run at LHC	Dr GONZALEZ DE LA HOZ, Santiago
14:20	[107] CMS Remote Analysis Builder (CRAB) with the ARC grid middleware	Mr EDELMANN, Erik
14:40	[57] LHC ATLAS users analysing data on the Grid	Dr LAMANNA, Massimo
15:00	[72] Client/Server Grid applications to manage complex workflows	SPIGA, Filippo
