works in orcid by month

unique dois by month

● Research Institute (314) 61%

● Publisher (84) 16%

● Repository/profile (43) 8%

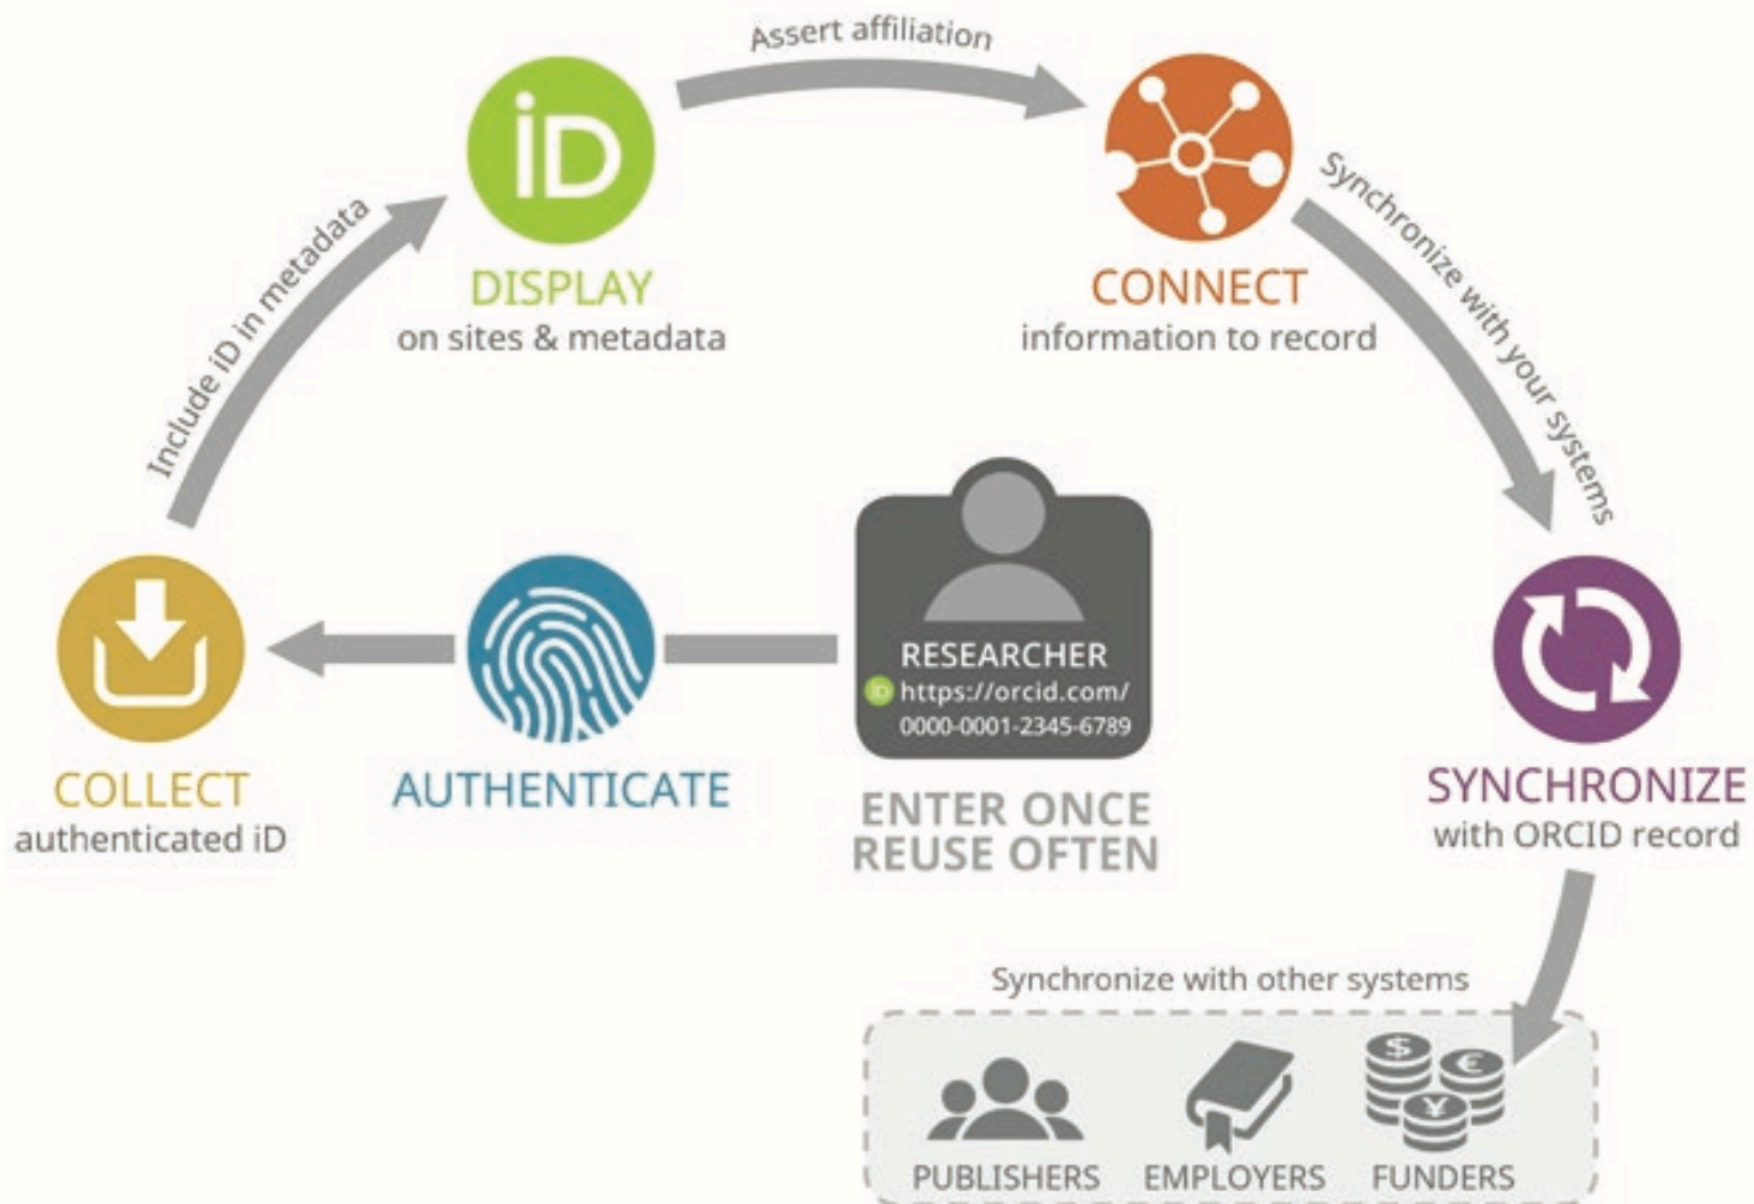

● Association (32) 6%

● Funder (17) 3%

● Other(25) 5%

NB Beyond members, also O(100) public API integrations also exist

COLLECT & CONNECT WORKFLOW

AAHEP group Collect and Connect

- Why do we collect ORCID IDs?
(authentication per-se, internal use, connections...)
- When do we collect ORCID IDs?
(what is an user doing when we ask?...)
- How do we collect ORCID IDs?
(typed in, authenticated...)

- To what do we connect ORCID IDs ?
(outputs, which,... actions e.g. peer-reviewing...)
- When do we expose these connections ?
(asap, never, later,...)
- How do we expose these connections ?
(push to ORCID, CrossRef, a web page, a PDF, open API....)
