Thoughts and ideas of a previous actor and now project's observer about ROOT's future

Monday 10 September 2018 09:45 (20 minutes)

I would like to present some thoughts and ideas may be useful for the future based on one side on my previous experience as an actor and now observer of the project since a few years, and on the other side on many comments/suggestions received from many users.

Presenter: BRUN, Rene (CERN)

Session Classification: Invited Talks
