

Phenomenology 2018 Symposium

Monday, 7 May 2018

BSM I - G-26 (14:15 - 16:00)

time	[id] title	presenter
14:15	[450] Double Gauge Boson Production in the SM EFT	LEWIS, Ian
14:30	[534] Precision Measurement with Diboson at the LHC	LIU, Da
14:45	[522] Searches for heavy resonances decaying into Z, W and Higgs bosons at CMS	Mr WANG, Yanchu
15:00	[497] Measuring the mass, width, and couplings of semi-invisible resonances with the matrix element method	SHYAMSUNDAR, Prasanth
15:15	[580] Searching for W' using b-tagging, hadronic taus, and missing energy	ABDULLAH, Mohammad
15:30	[549] Searches for long-lived particles and other non-conventional signatures at CMS	RICCI-TAM, Francesca
15:45	[449] New physics opportunities for long-lived particles at electron-proton colliders	DESHPANDE, Kaustubh
