

A photograph of a modern university campus. In the foreground, a paved path leads through a green lawn towards a large, colorful building complex. The building features orange, white, and grey facades with many windows. A prominent red sculpture, resembling a stylized figure or structure, stands on the lawn. To the left, a large tree with green leaves is partially visible. The sky is clear and blue. The text "A One-Week Visit at CERN of an MIT ReACT Student" is overlaid in white, bold font across the middle of the image.

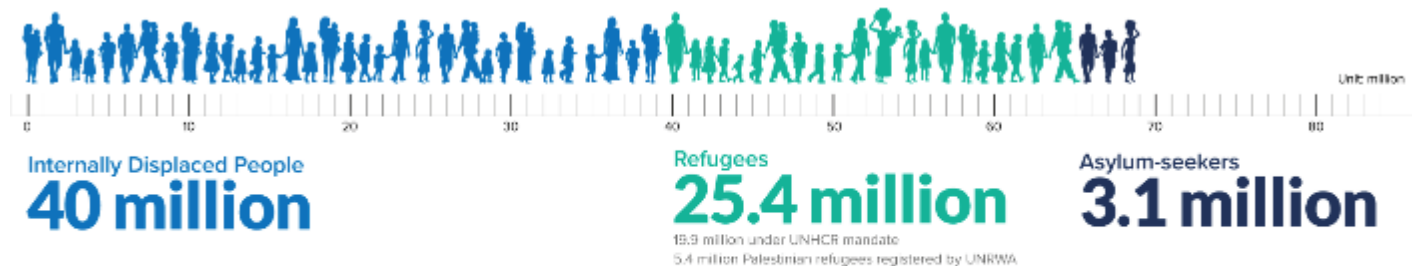

A One-Week Visit at CERN of an MIT ReACT Student

Michał Maciejewski

Talent is distributed equally but opportunities are not

Talent is distributed equally but opportunities are not

Where the world's displaced people are being hosted

85 per cent of the world's displaced people are in developing countries

57% of refugees worldwide came from three countries

South Sudan
2.4m

Afghanistan
2.6m

Syria
6.3m

Switzerland
8.4 m
