Direct dark matter search with CDEX at CJPL

Wednesday, July 25, 2018 10:05 AM (25 minutes)

The China Dark Matter Experiment (CDEX) aims at direct searches of light Weakly Interacting Massive Particles (WIMPs) at the China Jinping Underground Laboratory (CJPL) with an overburden of about 2400m rock. Results from CDEX-1B and CDEX-10 phase, and related technical development are reported. In addition, the progress of CJPL-II extension project will be introduced.
