

IDM 2018

Thursday 26 July 2018

4.4 Axions (14:00 - 16:00)

-Conveners: David Pinner

time	[id] title	presenter
14:00	[47] The Stochastic Axion Scenario	SCHERLIS, adam
14:20	[103] Cosmological adiabatic conversion between QCD axion and ALP	TAKAHASHI, Fuminobu
14:40	[108] Non-relativistic effective field theory of scalar field and longevity of condensates	Dr YAMADA, Masaki
15:00	[118] Dark Matter-Baryon Scattering in Global 21cm Signal	WU, Chih-Liang
15:20	[99] Early dark energy and the Hubble tension	KARWAL, Tanvi
15:40	[109] Duration of classicality of the axion dark matter condensate	Dr ARZA, Ariel
