

IDM 2018

Friday 27 July 2018

5.4 Indirect Detection (14:00 - 16:00)

-Conveners: Jan Conrad; Jan Conrad; Jan Conrad

time	[id] title	presenter
14:00	[32] GAPS: Cosmic-ray antinuclei for dark matter searches	PEREZ, Kerstin
14:20	[53] Dwarf galaxies J-factors without priors: a frequentist Jeans analysis consistent with indirect Dark Matter searches	CHIAPPO, Andrea
14:40	[80] Effects of Dark Matter Distribution Uncertainties on Milky Way Satellite Galaxy Dark Matter Searches	WANG, Mei-Yu
15:00	[82] Point Sources at the Galactic Center	LEANE, Rebecca
15:20	[16] Multiwavelength analysis of annihilating dark matter as the origin of the gamma-ray emission from M31	Mr MCDANIEL, Alex
15:40	[117] Astrophysical vs. dark matter interpretations of gamma-ray observations in dwarf galaxies	GERINGER-SAMETH, Alex
