

XII SILAFAE

First bulletin

Dear colleagues,

The Latin American Symposium of High Energy Physics (SILAFAE) is a premier event in Latin America, mainly targeted to particle physics community but also including areas such as gravitation and cosmology. The cutting edge knowledge in theoretical and experimental aspects of these areas is covered through plenary talks given by leading scientists, plus to parallel oral contributions and poster presentations. In conjunction with the extensive participation of the Latinamerican particle, astroparticle, and cosmology physicists communities, the SILAFAE also counts with an important participation of scientists which comes from all across the world. Furthermore, the SILAFAE has the important role of allowing junior scientists within, and outside, the continent to present their work.

This is the SILAFAE 12th edition and it would be held at Lima, Perú from November 26th to 30th. Please go to our webpage:

<https://indico.cern.ch/event/701855/>

for doing your registration, payment and abstracts submission and checking any other relevant information.

Important dates:

The deadline for the early registration is October 5th.

The deadline for abstracts submissions is September 14th.

Dr. Alberto Gago Medina
