

Re-interpretations of Standard Model and Top results at CMS

Monday 14 May 2018 15:00 (20 minutes)

In this talk I will discuss a set of standard model and top analyses in CMS which have been re-interpreted for a different measurement. I will also show examples of analyses where the re-interpretation did not happen for a few reasons.

Presentation

Presenter: GOMEZ CEBALLOS RETUERTO, Guillermo (Massachusetts Inst. of Technology (US))

Session Classification: Particle-level measurements
