

# GPU PixelTracks

A. Bocci, M. Kortelainen, V. Innocente,  
F. Pantaleo, M. Rovere,

# Problems solved

Andrea: merged 3 PRs and washed dishes

Felice: almost done with HeterogeneousEDProducer and washed dishes

Marco: GPU Riemann fit compiles and runs without any Segfault, results to be verified, and ran away without washing dishes

Matti: Sketch the plan for Raw to digi with HeterogeneousEDProducer

Vincenzo: Solved some out-of-bound reads and running race-check

# Problems to be solved

Andrea: scram b and CPE

Felice: solve problems with gcc7 which does not appear with gcc6.3

Marco: validation of the produced results

Matti: execute the plan

Vincenzo: Solve issues found by race-check
