

# 2nd International Magnet Test Stand Workshop

## Tuesday 8 May 2018

### **Operation: Operation Of Test Facilities (14:10 - 16:10)**

-Conveners: Piyush Joshi

| time  | [id] title  | presenter               |
|-------|---|-------------------------|
| 14:10 | [50] Cryogenics : good practice for operation ( design, safety, planning) | GAYET, Philippe         |
| 14:35 | [51] Power supplies and associated control                                | YAMMINE, Samer          |
| 15:00 | [52] Interlocks and magnet protection in the test stand ( EE, Dump)       | JOSHI, Piyush           |
| 15:25 | [54] Electrical integrity test during magnet fabrication and testing      | AMBROSIO, Giorgio       |
| 15:50 | [53] Electrical intergity measurements in the LHC                         | BEDNAREK, Mateusz Jakub |

### **Operation: Operation Of Test Facilities (16:40 - 18:00)**

-Conveners: Piyush Joshi

| time  | [id] title   | presenter           |
|-------|--|---------------------|
| 16:40 | [55] Quench protection ( CLIQ, HEATERS)                                | MARINOZZI, Vittorio |
| 17:05 | [56] Quench detection and DAQ systems                                  | PEPITONE, Kevin     |
| 17:30 | [57] Magnetic measurements on Nb3Sn magnets (Techniques, Requirements) | VELEV, Gueorgui     |
