

4<sup>th</sup> Elba Workshop on  
**Forward Physics @ LHC Energy**

*La Biodola, Isola d'Elba (Italy), Hotel Hermitage*

*May 24 – 26 2018*

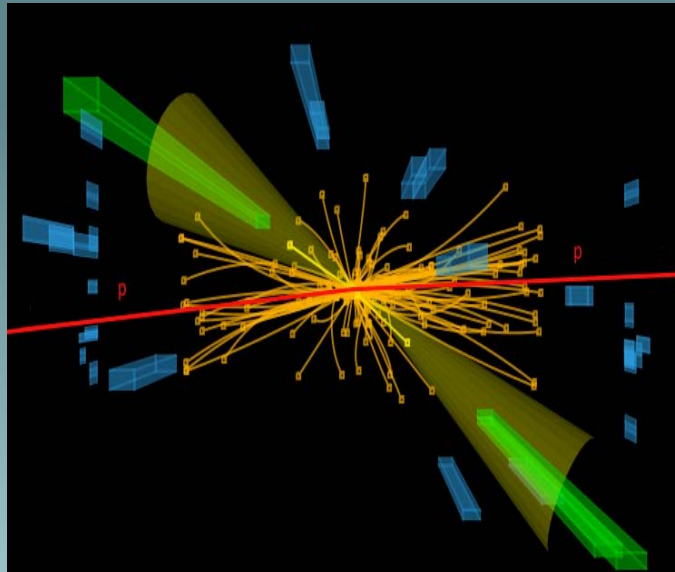

*Current theoretical frameworks and beyond the Standard Model at 13 TeV energy will be analyzed. The perspectives of the main current forward experiments at the LHC are on focus, as well as the required detector developments and accelerator operations.*

***Domains***

*Theory*  $\leftrightarrow$  *Forward Physics Results*  
*Experiments*  $\leftrightarrow$  *Detectors Technology*  
*Accelerators HL*

***Scientific Program  
Committee***

Michele Arneodo  
Joachim Baechler  
Helmut Burkhardt  
Paula Collins  
(chair) Simone Giani  
Paul R. Newman  
Kenneth Osterberg  
Michael Rijssenbeek  
Christophe Royon  
Gregory Soyez  
Joao Varela

***Local Organizing  
Committee***

Valentina Avati  
Mirko Berretti  
Edoardo Bossini  
Mario Deile  
Fabrizio Ferro  
Nicola Minafra  
Michele Quinto  
Emilio Radicioni  
Angelo Scribano (chair)  
Nicola Turini

Secretaries and Staff: Claudia Tofani, Lucia Lilli, Elisa Gros, Maurizio Garzella, Mauro Giannini

Participation of all the people working in the field is welcome
