=====

1) 2/12: BNL-OSG2 - file deletion failures ("An unknown exception occurred. Details: DavPosix::unlink Failure"). Issue quickly resolved (see details in the ticket).
https://ggus.eu/?mode=ticket_info&ticket_id=133431 closed the same day - eLog 64405.

2) 2/12: SWT2_CPB - some source file transfers failing with "SOURCE CHECKSUM MISMATCH User defined checksum and source checksum do not match." A small number of files on a dataserver which had a problem are corrupted and will be declared as bad to rucio. https://ggus.eu/?mode=ticket_info&ticket_id=133432 in progress (no eLog entry?).

Follow-ups from earlier reports:

(i) 12/6: SLACXRD - file transfer and deletion errors. https://ggus.eu/?mode=ticket_info&ticket_id=132333. (No eLog?)

Update 12/25: ticket put on-hold during a site power outage (maintenance).

Update 2/1: still some issues being addressed in the ggus ticket.

(ii) 1/15: LUCILLE - all file transfers and deletions failing ("Operation timed out" errors). https://ggus.eu/?mode=ticket_info&ticket_id=132871 in progress, eLog 63974.

Update 1/23: Working on the problem (data loss, hardware), so ggus 132871 was put on-hold.
