

Harmonization of Curing and Reaction Heat Treatment procedures of 11 T

in MDT and LMF sections

Meeting 8, 21/02/2018

F. Lackner, D. Pulikowski, J. Mazet, J. C. Perez, S. Luzieux

Status

- Possible steps for harmonization for Winding/Curing/Reaction were presented during the task force meeting 7.
- Discussion of measurements taken during winding/curing/reaction foreseen 23rd of Feb (earliest slot). Aiming to identify measurements which will be kept during the short model coil production).
 - Analysis of measurements which were taken during the MQXFS coil winding
 - Analysis of measurements which were taken during the 11T coil winding
- Impregnation investigation of process steps for harmonization is currently ongoing with short model coil 120. So far lead preparation was carried out, summary on investigation will be presented during the task force meeting 9.
