

# QEDEW aspects of precision measurements

**Fulvio Piccinini**

INFN Sezione di Pavia

LHC EW WG meeting  
21 June 2018, CERN

## layout, input from last Orsay meeting

- comparison/validation of MC codes including QED FSR/ISR
- validation of the procedure proposed by ATLAS of reweighting existing generated events
- reminder of Born, dressed and bare leptons
- citation to the theoretical draft on  $\sin^2 \vartheta^{eff}$  circulated by Stefan
- QCD $\otimes$ QED resummation (here or in the talk by Frank?)
