

# Social program

Wednesday 20.06.

## Brewery tour

At 15:00 we meet in one of the 6 genuine Munich breweries: Spaten-Franziskaner Bräu for a guided tour through the brewery. After the approximately 2 hour-long tour, we will enjoy beer and Brotzeit, a German-style snack

## How to get there:

Marsstr. 48  
S-Bahn Hackerbrücke

From Garching (about 40-50 mins)  
Take U6 to Marienplatz  
Change to S-Bahn towards Hauptbahnhof  
Exit at Hackerbrücke  
Follow the map

## Olympiapark

Afterwards we invite you for a walk in the Munich Olympic Park, which hosted 1972 Summer Olympics. We recommend visiting the Olympic Stadium and offer a common tour at 18:30 (entrance fee 3.50 EUR). The design of the stadium was considered revolutionary, with sweeping canopies of acrylic glass stabilized by metal ropes. Additionally, you may visit a BMW World - an exhibition centre and a showroom, located near the BMW headquarters. Enjoy the current model line-up of BMW cars and motorcycles.

You may also enjoy a ride on the Park railway (3.50 EUR)  
Arrival/departure: from the Olympic Tower and the BMW Welt  
Duration: ~20 mins  
Departure: every ~30 mins

## How to get from the brewery to the park (about 40 mins)

Return to S-Bahn Hackerbrücke  
Take S-Bahn towards Ostbahnhof  
Change at Marienplatz to U3 towards Moosach/Olympiazentrum  
Exit at Olympiazentrum

U3 Olympiazentrum

We prepared two suggestions for a nice walk through the scenic park

**Tour 1** – Short tour with the most attractions, ~ 25 mins

**Tour 2** – Extended tour up the hill with a very scenic view of the skyline and the alps, passing by a very nice, small beer garden on the hill ~60 mins

## Collaboration Dinner

19:30, Olympiaturm, Restaurant 181

The conference dinner will take place in a Restaurant 181, located 181 m above the ground in the Olympic Tower. The Olympic Tower itself was built between 1965 and 1968. It is 291.28 m high and weights 52200 tons. It is located in the middle of the Olympic Park.

There are 5 levels in the tower. The lowest one at 178 m is for maintenance only. The first public floor at 181m and a diameter of 28.3 m is the restaurant. The following two levels at 185m and 189 m are observation decks where the second one is an open-air platform.

The dinner includes entrance to the observation decks that can be visited before, during and after the banquet. The tickets are already reserved and can be picked up at the check-in of the restaurant at the right side of the entrance to the tower (**password: “TU München”**).

The elevator to the public areas goes with a velocity of 7 m/s so the journey to the top takes 30 seconds. The restaurant is rotating with a time of circulation of 49 to 70 minutes, depending on the wind velocity. This gives a frequency between 0.24 and 0.34 mHz.
