

Vienna Central European Seminar 2018

Friday, 30 November 2018

Plenary (09:00 - 10:30)

time	[id] title	presenter
09:00	[6] "The lepton asymmetry of the Universe"	SCHWARZ, Dominik
09:45	[7] Towards a link between particle physics and quantum gravity	EICHHORN, Astrid

Plenary (11:00 - 12:45)

time	[id] title	presenter
11:00	[8] "Global and local symmetries from a black hole perspective"	URBANO, Alfredo Leonardo
11:35	[9] Dark matter shifts away from direct detection	SALVIONI, Ennio
12:10	[5] "Towards a more efficient algebraic model of particle physics"	FUREY, Cohl

Plenary (14:15 - 15:45)

time	[id] title	presenter
14:15	[3] "Implications of Symmetries in the Scalar Sector"	REBELO, Margarida Nesbitt
15:00	[4] Dark energy, the string landscape and the swampland	WRASE, Timm Michael

Saturday, 1 December 2018

Plenary (09:00 - 10:30)

time	[id] title	presenter
09:00	[10] Fundamental Interactions: The next generation	SANNINO, Francesco
09:45	[11] "What is physical? - Local vs. Global Symmetries"	MAAS, Axel Torsten

Plenary (11:10 - 12:40)

time	[id] title	presenter
11:10	[13] Black Hole Entropy from Soft Hair	PERRY, Malcolm
11:55	[12] Soft Heisenberg hair	GRUMILLER, Daniel

Plenary (14:00 - 15:30)

time	[id] title	presenter
14:00	[14] "QCD Topological Susceptibility at high-T via Reweighting"	MOORE, Guy
14:45	[15] "The QCD theta term and holography"	BIGAZZI, Francesco

Plenary (16:00 - 17:30)

time	[id] title	presenter
16:00	[16] "The golden age of chirality and quantum mechanics"	LANDSTEINER, Karl
16:45	[17] "QCD in a magnetic background field"	SCHAEFER, Andreas
